This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claim 1 (Canceled).

Claim 2 (Currently Amended): A sheeting, comprising:

- a. — at least one layer of microlenses, the layer having first and second sides; and
- b. — a layer of material disposed adjacent the first side of the layer of microlenses;
wherein the material has one or more images formed therein, wherein at least one of the images is a partially complete image, and wherein each image is associated with one of a plurality of microlenses, and
wherein each microlens has a refractive surface that transmits light to a position of the material to produce, under reflected or transmitted light, a composite image from the images formed within the material that appears to float above the sheeting, float below the sheeting or float in the plane of the sheeting.
- ~~c. — at least a partially complete image formed in the material associated with each of a plurality of the microlenses, wherein the image contrast with the material; and~~
- ~~d. — a wherein the composite image, provided by the individual images appears under reflected light or transmitted light to float above the sheeting, float below the sheeting or float in the plane of the sheeting.~~

Claim 3 (Canceled):

Claim 4 (Previously Presented): The sheeting of claim 2, wherein the composite image appears to move relative to the sheeting as the viewing position changes relative to the sheeting.
